CONFIRMED official rules, his own posts, or a direct transcript quote **SAID** an interview or Q&A answer reported by a named source
LEANED a hedge or nudge in his own words **DECLINED** asked directly, would not answer (listed so you know it is open)

1 THE OFFICIAL RULES

1. **CONFIRMED** Hunt Items (the treasure, the checkpoint and any placed clue) are NOT underwater, on private property, in caves, mines or tunnels, anywhere that needs rappelling, associated with man-made buildings, near graves or grave markers, or in dangerous places.
treasure.quest rules, Mar 2025
2. **CONFIRMED** All Hunt Items ARE more than one mile from anywhere Posey, his family or friends live, work or own property, including their businesses; on publicly accessible land anyone can visit; safe to get to.
treasure.quest rules, Mar 2025
3. **CONFIRMED** You do NOT need climbing gear or ropes, permission to enter private land, swimming skills, ladders or climbing skills, or a high-clearance vehicle.
treasure.quest rules, Mar 2025
4. **CONFIRMED** Railroad tracks: 'I consider them to be a man-made structure. Yes.' Then: 'Based on how the rules are described, railroad tracks are ruled out.'
Dillon Q&A, Jun 21 2025; Seekers Summit, Mar 28 2026
5. **CONFIRMED** 'The treasure is not on private property.' Restated emphatically after reports of trespassing.
Posey, June 2026
6. **SAID** Federal versus state land: 'No, but it's publicly accessible as of today.' 'The focus is on legal accessibility of the final location, not convenience of access.'
Dillon Q&A, Jun 21 2025
7. **CONFIRMED** Do you have to pay to get in? 'No, not as of today.'
treasure.quest FAQ
8. **CONFIRMED** Can I bring my dog? 'If your dog is the outdoors type, absolutely!' The best way to use a dog in this hunt is to practice good outdoor manners, not to train it to sniff for gold.
treasure.quest FAQ; Dillon Q&A, Jun 21 2025 (1:17:09)
9. **SAID** Stay on public land. Use the available mapping apps to check property lines.
Dillon Q&A, Jun 21 2025 (35:00)
10. **SAID** Access to the location is free and available 24/7.
Posey Q&A (Mysterious Writings compilation)
11. **LEANED** Is the hunt 24/7 accessible year round? 'I suppose that would depend on your definition of accessibility, but it would be possible.'
Seekers Summit Q&A transcript, Mar 28 2026 (1:07:25)

12. **SAID** 'If you need rope then it's not the right location.' Searchers are going too deep into wilderness, rappelling into caves and searching cliffsides. Nothing dangerous is required.
Seekers Summit, Mar 28 2026
13. **SAID** A gazebo counts as a building. The exterior of a structure: 'always a possibility.' Can a hunt item be displayed on the outside of a man-made building? He does not want to limit that possibility. Not wheelchair accessible.
Seekers Summit, Mar 28 2026; X Marks the Pod, early 2026 (35:26)
14. **SAID** Are there loopholes in the rules? There are no intentional loopholes.
X Marks the Pod, early 2026 (34:11)
15. **DECLINED** Does the hunt require a river crossing? Not specified.
X Marks the Pod, early 2026 (50:23)
16. **SAID** No specialized knowledge is needed. No dangerous water crossings.
Public statements (research report)
17. **SAID** All clues are expected to stand the test of time; he will announce if something drastic changes.
Posey Q&A (MW compilation)

Dillon Q&A, Jun 21 2025 (17:32)
5. **CONFIRMED** 'Virtually every line in the poem is helpful. So just because as hope surges is the first actionable clue, doesn't mean people should discount the earlier lines. They are helpful context.'

Seekers Summit, Mar 28 2026
8. **CONFIRMED** Would a solver make more progress searching for hidden thematic or symbolic rules governing the poem, or by treating it more like Fenn's poem? 'Probably roughly both in equal measure.'
Seekers Summit Q&A transcript, Mar 28 2026 (23:07)

Seekers Summit Q&A transcript, Mar 28 2026 (2:34)
12. **CONFIRMED** Is there a time-travel element to the hunt? 'Not to my knowledge.'
Seekers Summit Q&A transcript, Mar 28 2026 (1:08:05)

Posey Q&A, 2025
19. **SAID** Backtracking: 'If you knew the entirety of the solution, then the answer is no. But if you go through the natural progression, the answer is more like a yes.'
X Q&A via Mysterious Writings, Sep 2025
20. **CONFIRMED** There are multiple valid ways to solve it: 'in case certain aspects of the mechanics don't work... there are other ways to approach it so that you end up finding it either way.' 'There is an optimal solution and fallback paths... someone might not quite understand one clue, they could still limp along.'
Sandal livestream, Sep 27 2025; Dillon, Jun 2025

Dillon Q&A, Jun 21 2025

3. **SAID** Is 'he' living, or was he ever living? 'That depends on your perspective.'
Seekers Summit, Mar 28 2026
4. **SAID** The bride is not a person who is alive right now. He does not want anyone thinking she is a living person you can interact with, so that searchers do not hassle real people. The bride is something visible.
Seekers Summit, Mar 28 2026
5. **SAID** Is the bride alive? Declined to answer in June 2025. By September: 'Depends on how you define the term alive.'

14. **DECLINED** Is the place in her face or her gaze? No clarity given.
Seekers Summit, Mar 28 2026

7 THE CHECKPOINT

1. **SAID** There is a built-in checkpoint. It gives the reassuring feeling you are not lost and 'zero doubt' you are trending right. You are at least halfway through the poem's clues when you reach it. It is part of the poem, a stage of the journey. Excellent chance you find the treasure if you are first to it.
Posey Q&A (MW compilation)
2. **SAID** The checkpoint is both something he placed AND something already there. Tied to a topographic feature? 'There is some implication there.' Not something you need to worry about moving. It is possible to be at it and not recognize it, depending how close you are.
Seekers Summit, Mar 28 2026
3. **SAID** 'You'd be hard pressed to get all the way without seeing the checkpoint.' 'There is a chance you could bypass it, but boy the odds are astronomically low.'

4. **CONFIRMED** The checkpoint is not visible in the Netflix series.
Posey on X, Aug 1 2025
5. **DECLINED** Is the checkpoint a boots-on-the-ground checkpoint or a before-you-go checkpoint? 'I haven't specified, but I might reconsider that in the future. For now, I have to avoid answering.'
Treasure Hunt With Us, Apr 9 2025 (2:56)
6. **CONFIRMED** How does he know a searcher was near the checkpoint? 'I'm not going to say the exact way, but there are a number of ways that people have conveyed to me where they're searching. In one of those spheres, I have come to learn that there have been more than one person that have been close to the checkpoint.'
Seekers Summit Q&A transcript, Mar 28 2026 (32:40)
7. **DECLINED** Can he view searchers if they are near the treasure? 'I am going to punt on that question.'

Seekers Summit Q&A transcript, Mar 28 2026 (14:26)

Toby Younis interview (A Gypsy's Kiss) (6:56)

10. **CONFIRMED** 'Formalized hide-and-seek with confidence checkpoints. I wanted to give a way for people to gain confidence as opposed to losing confidence as they work through clues.'

X Marks the Pod, early 2026

8 WHERE IT IS AND IS NOT

1. **SAID** June 2025: he was not ruling out any search state, including Montana, but might consider it in the future if there was no tangible progress.
Dillon Q&A, Jun 21 2025 (19:12)
2. **SAID** Colorado and Oregon are eliminated, per the Mysterious Writings account of the Summit. Note: in the Q&A transcript, asked 'What are the two states you would have eliminated?' (23:45) he declined to name them and redirected. Seekers Summit via Mysterious Writings; Seekers Summit Q&A transcript, Mar 28 2026 (23:45)
3. **CONFIRMED** What does eliminating a state mean? 'When I say eliminate a state, I mean that you don't need to worry about it. Like there are no clues in that state. There's no treasure in that state. It's complete elimination.'
Seekers Summit Q&A transcript, Mar 28 2026 (36:17)
4. **SAID** Are the majority of the hunt items and locations in the same state or county as the treasure? 'I would just generally be less concerned about the borders.'
Seekers Summit Q&A transcript, Mar 28 2026 (10:42)
5. **LEANED** Do the states chosen for the Summit events have anything to do with where the treasure is? 'I'm certainly not going to rule them out.'
Seekers Summit Q&A transcript, Mar 28 2026 (1:09:13)
6. **SAID** 'The treasure is absolutely hidden somewhere on the map that I've published.' The map is useful, 'for a couple different reasons.'
Posey Q&A; X Marks the Pod
7. **SAID** 'I chose the landmarks to be labeled, but the map was designed by a third party. Any incorrect names, positions, and elevations are not intentional.'
Posey (quoted in research)
8. **SAID** The website map's missing state capital and misspellings are accidental.
Public statements (research report)
9. **SAID** Is the site within 75 miles of somewhere he searched for the Fenn chest? 'I searched a lot of places, guys. Uh, so yeah, I mean it's true to say that at some point I had searched for the Fenn treasure within that 75 mile radius. Yeah.' He then walked it back, not wanting people to think he had eliminated states, and said his early idea of the Rocky Mountains was 'incredibly broad, any mountain with rocks.'
Seekers Summit, Mar 28 2026
10. **SAID** During his Fenn search he believes he was extremely close to the chest in Yellowstone, possibly within 10 to 15 feet, and missed it.
Public statements (research report)
11. **CONFIRMED** Seeing the animal while hiding gave him no fear: 'It was quite the opposite.'
Seekers Summit Q&A transcript, Mar 28 2026 (38:34)
12. **CONFIRMED** An animal seen while hiding: mammalian, NOT a moose, the first time he had seen it in nature. 'If I said the animal it could have a pretty profound impact on the search area.' Separately he has said he has seen a wolverine in the wild.
Seekers Summit, Mar 28 2026

X Dark Matters, Sep 4 2025; X Marks the Pod
7. **SAID** Are 'The Goonies' or 'A River Runs Through It' helpful? Fun for 'pregaming' an adventure, but not strictly necessary for the hunt.
Livestream interview transcript (timestamped; matches the Sandal Sanders livestream, Sep 2025) (27:08)
8. **SAID** 'Take your treasure hat off and read the memoir as a memoir.' 'Understanding the person who hid it is the clearest map.'
X Marks the Pod, early 2026
9. **CONFIRMED** The one mistake searchers consistently make, and the reset: 'Take a Matt stance, Matt the editor. If you're getting in deep and you feel like you're going down many rabbit holes, probably the best reset is to just read it as a memoir.'
Seekers Summit Q&A transcript, Mar 28 2026 (58:18)
10. **CONFIRMED** Does the book mention the area of the first actionable clue? 'The very specific area is not mentioned, but there are times in the book where descriptions pertain to the area where the treasure is hidden.'
Seekers Summit Q&A transcript, Mar 28 2026 (1:23:39)
11. **CONFIRMED** How many hints or clues are in the book's stories, not counting the poem? 'I haven't counted them but there are several.'
Seekers Summit Q&A transcript, Mar 28 2026 (1:06:08)
12. **CONFIRMED** He did not plan to write a book at first; he wrote it so everyone was on equal footing and to have creative control over hints. Not every story has a hint, but they are sprinkled throughout.
Treasure Hunt With Us, Apr 9 2025 (3:47)
13. **CONFIRMED** His favorite story in the book: he has 'an affinity for the postal pilgrimage.'
Treasure Hunt With Us, Apr 9 2025 (5:01)

Dillon Q&A, Jun 21 2025 (30:46)

17. **LEANED** Do the four points of the compass designate a specific site? 'Anything related to that, the book is the best reference.' Asked whether they map to the starting point, Wisdom, the bride, the brother, the babbling brook, the grandfather and the exact spot: 'a good question, but I have to punt on that.'
Treasure Hunt With Us, Apr 9 2025 (14:03, 14:46)

Seekers Summit Q&A transcript, Mar 28 2026 (1:18:21)
21. **CONFIRMED** Discrepancies between the hardcover and the audiobook or ebook (Big Hill, Doc's death, mileage, age) are not intentional. 'I did publish an errata on treasure.quest. The purpose is to make sure people don't spend time on things that don't matter that were truly just mistakes.'
Seekers Summit Q&A transcript, Mar 28 2026 (46:35)
22. **CONFIRMED** Is the number 42 relevant to finding the treasure? 'I guess the short answer is yes.' On 42: 'The Hitchhiker's Guide to the Galaxy is a fantastic book.' Asked about the 42 on his taillight, he gave no more.

10 THE CIPHER, THE TECHNICAL HINT, THE SONGS

1. **SAID** One cipher exists, plus one hint he describes as 'somewhat technical.' Neither is critical to the solution. Earlier: 'There are two elements. One is a cipher (very approachable), and the other might require technical know-how, but there are ways to uncover it without advanced knowledge. It is not a super critical clue.'
Seekers Summit, Mar 28 2026; Treasure Hunt With Us, Apr 9 2025 (19:24)
2. **DECLINED** Is the cipher more toward the poem or the book? 'I haven't specified.' (A year later: 'Who says the cipher is in the book?')
Treasure Hunt With Us, Apr 9 2025 (20:47)
3. **SAID** Is the cipher in one section of the book or several? 'Who says the cipher is in the book?'
Seekers Summit, Mar 28 2026
4. **CONFIRMED** The cipher's answer is MAGYAR, solved April 2026 and confirmed. Basic math only. 'The cipher is more than anything a nod to what the container is.' MAGYAR does not give coordinates, a state or a region.
Posey, April 2026; Sandal livestream
5. **CONFIRMED** 'The key to one direction lies in another' is a hidden audio message in the ARKADE song. He confirmed it as the technical clue, not as the core geographic solution. Does it relate to the azimuth? 'No.'
Posey, April 2026; Seekers Summit
6. **CONFIRMED** Are the clocks part of the cipher? 'Yes.'
Seekers Summit Q&A transcript, Mar 28 2026 (38:08)
7. **SAID** There are clues in the hunt's songs. One song contains what he called an extremely definitive clue.
Posey Q&A (MW compilation); Livestream interview transcript (timestamped; matches the Sandal Sanders livestream, Sep 2025) (43:40)
8. **SAID** Is the cipher solvable without a math degree? Yes, it is designed to be approachable.
Livestream interview transcript (timestamped; matches the Sandal Sanders livestream, Sep 2025) (38:12)

9. **SAID** One person has solved the technical clue; it is not required to find the treasure. He was surprised it took so long: it is an Easter egg he never intended as a core barrier to entry.
Livestream interview transcript (matches the Sandal Sanders livestream, Sep 2025) (38:56); Toby Younis interview (A Gypsy's Kiss) (24:06)
10. **LEANED** Can the poem be solved with a flow equation? That 'sounds like it would require an advanced degree.'
Livestream interview transcript (timestamped; matches the Sandal Sanders livestream, Sep 2025) (57:08)

11 THE NETFLIX SERIES

1. **SAID** He had no creative control and did not know scene order, framing or focus. He hid hints during filming that even the producers did not know about. Clues exist only 'where I had some notion of control, directly or indirectly.'
Posey Q&A; Dillon Q&A
2. **CONFIRMED** At least five singular clues, plus compound clues that need several scenes.
Dillon Q&A, Jun 21 2025
3. **CONFIRMED** Two 'super obvious' hints: 'It's either episode two or three. It is a scene that does not have me in it. But it was a scene that I had some control over. If you rewatch it, it'll be pretty obvious.' By Sep 27 2025 he said people had figured these out.
Dillon Q&A, Jun 21 2025; Sandal livestream
4. **CONFIRMED** The lawyer / Carl scene: zero clues.
Dillon Q&A, Jun 21 2025
5. **CONFIRMED** The Red Mountain clip was B-roll chosen by the crew: 'I didn't have any influence or involvement in that.'
Seekers Summit Q&A transcript, Mar 28 2026 (1:05:00)

Seekers Summit Q&A transcript, Mar 28 2026 (1:08:20)
7. **CONFIRMED** The clock: Roman numerals make no difference. Clock count: 'the lower the number the better.' Times 4:02 and 5:26 are eliminated as meaningful.
Dillon Q&A; Posey Q&A (MW compilation)
8. **SAID** Was the clock actually moving during filming? 'That might have been a little uncanny.' (The research hub records him calling 4:19 on the clock 'a little uncanny.'
Treasure Hunt With Us, Apr 9 2025 (11:22); research hub (secondary)

12 THE CONTAINER AND THE TREASURE

1. **CONFIRMED** 'Who says it's a box?' The container is an existing object with 'targeted and deliberate modifications.' Some searchers have guessed it correctly. 'Extremely recognizable. Anybody who watched the series or read my book will know right away.' Not a Fenn replica. No knowledge of the Fenn hunt is needed.
Treasure Hunt With Us, Apr 9 2025; treasure.quest FAQ
2. **CONFIRMED** The Tucker bronze statue is NOT the treasure. The original Saddleback briefcase that carried the treasure, plus the Netflix coffee mugs, ship to the winner.
Treasure Hunt With Us, Apr 9 2025
3. **CONFIRMED** The whole treasure weighs about 60 pounds including the container.
treasure.quest FAQ

4. **SAID** The treasure is a real, physical collection of gold and gems located in the wilderness, not a proxy item.
Dillon Q&A, Jun 21 2025 (23:27)
5. **SAID** He will not reveal what the container is, to prevent decoys and because of possible future interference by AI.
Dillon Q&A, Jun 21 2025 (13:05)
6. **SAID** To claim the prize, the finder uses the email address on page 150 of the signed books. The prize includes the original Saddleback leather briefcase and the coffee mugs.
Dillon Q&A, Jun 21 2025 (1:13:24)
7. **SAID** Contents: mostly gold (bars, flakes, dust), precious gems, rare coins across eras, a meteorite, historical artifacts dating to 561 BC, items from the Forrest Fenn chest including the dragon bracelet, and a Bitcoin wallet funded by book sales. A separate Steward holds additional items.
Posey Q&A; public statements
8. **SAID** The 1652 Oak Tree shilling in the treasure has a personal backstory: it replaced a counterfeit one from his grandfather's collection.
X Marks the Pod, early 2026 (30:18)
9. **SAID** The steward verifies the finder's authenticity, releases the remaining Bitcoin wallet key, and ensures no one continues searching after the find.
Toby Younis interview (A Gypsy's Kiss) (31:49)
10. **SAID** Finders keepers. The finder may remain anonymous but must come forward within 30 days to claim the Bitcoin portion. The 30-day requirement protects the finder: there is additional legal paperwork on file with the steward that is important for the finder to have. The complete solution will be revealed at the conclusion of the hunt, with supporting documentation, to give 'zero doubt' that the treasure was hidden where claimed.
Posey Q&A (MW compilation); Treasure Hunt With Us, Apr 9 2025 (9:10); Toby Younis interview (A Gypsy's Kiss) (34:39)
11. **CONFIRMED** When the treasure is found, will he post a 30-day countdown on the website? 'Yes, I think I will. I think that's only fair.'
Treasure Hunt With Us, Apr 9 2025 (6:46)

13 THE HIDING TRIP

1. **CONFIRMED** Two journeys in 2023 totaling more than 9,000 miles; the first was reconnaissance. Off-grid. 'No hint meant to be read into 9,000 miles.' The point of the statement was to convey that he traveled a great distance.
Seekers Summit, Mar 28 2026; Dillon Q&A, Jun 21 2025 (10:49)
2. **CONFIRMED** At least four trips from the car, all within a 24-hour span, with a broken tibia, not in his own vehicle.
Seekers Summit, Mar 28 2026
3. **CONFIRMED** 'Anonymous travel is very hard... my route was convoluted... I did it twice.' He has never returned and has no plans to.
Seekers Summit, Mar 28 2026
4. **SAID** He aimed to leave no digital footprint of the journey, and filmed the description of the treasure for Netflix only just before release so production staff had no advantage.
Public statements (research report)

1. **CONFIRMED** 'The part of me that embraces childlike wonder' wrote the poem.
X Marks the Pod, early 2026 (5:39)

Toby Younis interview (A Gypsy's Kiss) (11:36); Froggy interview, 2025 (24:06)

Toby Younis interview (A Gypsy's Kiss) (15:42)
4. **SAID** He treated Fenn's hunt as a case study and used hindsight to build guardrails for a smoother, verifiable, streamlined experience. Success means independent, verifiable findings and few post-find conspiracy theories.
Toby Younis interview (A Gypsy's Kiss) (5:08, 8:36)

X Marks the Pod, early 2026 (3:31)

X Marks the Pod, early 2026 (5:08)
7. **SAID** Are Google Earth and AI helping or hurting? Both. Some people see patterns in foliage that do not exist.
X Marks the Pod, early 2026 (6:36)
8. **CONFIRMED** Designed for humans, not AI: 'creating a puzzle for an intellect that dwarfs our own is a paradox... I really wanted to design something that embraces the core of what it means to be human... an astronomical amount of thought.' He will not divulge the tactics.

11. **CONFIRMED** 'Forrest spent like 10 years... I came up with the bulk of that poem in about four to six hours.' Asked whether he is prouder of the spot or the puzzle: equally pleased with both.

Froggy interview, 2025 (4:26, 3:12, 8:54)
